thanks. There being no further business before them, the meeting adjourned sine die.

They go to Panama City tomorrow for a two days outing. Their train leaves at six o'clock sharp. There will probably be an informal meeting at Panama City before the editors leave that place. The Commercial Club will tender the visitors a big banquet at the hotel Mullen tonight.

Mostly routine matters were attended to at the afternoon session of the Alabama Press Association yesterday afternoon.

Some time was taken up in the discussion of an amendment to the constitution, the amendment being finally lost. Mr. L. S. Deal, Editor of the Dothan Home Journal read a paper on "The Government As A Competitor in Envelope Printing" which was heartily endorsed by the Association. Resolutions condemning the government for doing job printing were passed and ordered sent to various members of Congress.

IT IS FOUND

Dothan has been discovered. By this visit of the quill drivers your city, unknown to a large part of the state, has been discovered. Never again will it be a terra incognita. Every paper in the state from the Tennessee Valley to the Gulf, will make it a special feature, and the citizens of almost every county will be told of a gem that nestles among the pines and magnolias and set in an emerald field of wiregrass, where a few years ago the wild hog held undisputed sway, and where today every element of culture and refinement, civilization and progress are present, where a thrifty population lives and pushes upward and onward with the single purpose apparently common to all, that of polishing and beautifying the newly found gem—the city of Dothan.

THIS IS GOOD

The A and St A B Road again shows its desire to do everything for the pleasure of Dothan people that is in their power. General Manager W. R. Beaupre announces that the Sunday excursion train will not leave Panama City Sunday afternoon until 7:15. This will give the people time to enjoy a bath in the surf in the cool of the afternoon. So remember the train will leave Dothan at five thirty Sunday morning and returning leave Panama City at seven fifteen in the evening.

Remember the ice cream festival tomorrow afternoon and evening on the Court House lawn. Besides the ice cream part there will be a special feature for the young folks in the evening.

Mr. F. H. Bailey of Troy was here today.

Mr. Nathan Scheuer of Eufaula was here yesterday.

We who have grown up here with this town don't call it a pretty town, but our editor editors don't mind saying its a pretty enough place.

None of the editors have remarked about how dry the town was or how wet. They are satisfied to leave that part of it just like they found it.

The government building lot had the dirt broken on it yesterday but otherwise it is doing nicely. The town is moving dirt to low places over town and this would be a good time to get some dirt to fill in some holes on the streets.

MOONEY DELIGHTED WITH THE WIREGRASS

P. J. Mooney, managing editor of the Memphis Commercial Appeal and one of the highest salaried newspaper men in the country arrived in Dothan last night and was taken out this morning in an auto for a long trip in the country. Mr. Mooney is carried away with the prospects and general appearance of the wiregrass section and is high in his praise of all he has seen. "It is magnificent," he said, "and a divine providence has certainly smiled on this section. I don't know of any other section more favored and I see a magnificent future for it. I am charmed with the reception I received and regret that I must be back in Memphis Friday." Mr. Mooney spoke to the editors during the morning session.

BESSEMER WILL NOT GIVE UP FIGHT

Bessemer is not willing to give up her fight for her new county and according to Walter S. Gilbert, editor of the Bessemer Daily Times and secretary of the club which made such a splendid fight to pass the constitutional amendment, the fight will go on until the end is reached and the fight is won.

"We expect to bring the matter before every session of the legislature, either regular or special, until we get that county," said Mr. Gilbert. "and we appreciate Houston county's fine vote and feel that we can always depend on her for support."

The fight Bessemer has made for a new county has made his town famous the state. That city is the center of more than fifty thousand people and the new county would be rich and strong and should be created.

Bessemer has two representatives at the editors meeting. William H. Hudson, one of the best Brown editors in the state, and Walter S. Gilbert who has made his mark in Alabama Journalism.

WHAT'S THE MATTER WITH DRAGO?

A committee of Mobile citizens called on Gov. Comer to protest against his supposed proposed appointment of John Drago to fill the vacancy caused by the removal of Cazalas. On that committee was Harry Hartwell, the automobile owner who it was said on the night of the lynching of the negro who killed the deputy had his auto dressed up in bunting ready to celebrate the event or to be used in case of emergency.

Now why should these good citizens be against the appointment of Drago? He didn't participate in the lynching or as far as is known approved it. He is a citizen of high standing and of excellent ability. He is a part of the community but no one is to blame but that he would interfere with the law. What in it is required of an official?

G. Comer strikes us at times as a sort of fanatic himself but we are firmly convinced that he is giving little or no heed to the protests of citizens who are so limited by their own narrow horizon and whose insouciance to make a hobby of it is handed into their own belief.

We hope G. Comer will appoint a good and capable successor of Cazalas and in independent of the objections and protests of either friends or enemies.

JEFFERSON COUNTY BOND ISSUE

On Saturday Jefferson county voters on issuing \$100,000 bonds to the creation of a new court house and jail in Birmingham and \$100,000 for court house at Bessemer the ballot boxes showed that each voter can vote for or against either proposition. It is suspected that the latter proposition was attacked by the county board of revenue in order to strengthen or carry the proposition through.

It is generally known that the Bessemer section of Jefferson county has for many years been seeking the establishment of their own county. Birmingham in seeking the erection of a skyscraper court house knew that it would be opposed by the solid vote of the Bessemer section which would defeat it. Hence its proposition to vote a hundred thousand dollars for a court house there to induce support in their own project. The Birmingham papers are zealous among the people to vote both propositions but it is rather mildly suspected that there is a little hypocrisy embodied in the urging and that it is not expected that Birmingham will give much strength to the Bessemer issue. Both propositions will probably fail.

In the mean time they of the Bessemer section are going ahead proposing to renew the contest for the formation of their new county before the extraordinary session of the legislature with bright assurance of success.

ANTI APPENDICITIS PIE

It did look for awhile as if blackberry pie was destined to be come obsolete a thing of the past a lost but cherished art but such is not the case, it is our mission to inform you.

We are all a member with the doctors and out a case of the so called blackberry. I am one of the men that I might say the national index to choke down and anti-punctures. This chronic must have been getting in holes on him from the beginning, say when I read I was eaten of worms but none of the doctors got on to the name till they got over in the last part of the book (where it is long). So during the last few years much has been said of the operation for appendicitis.

It first made its appearance among the rich and had its run. Then it attacked the man or woman who is called a success of note and then it began to rush the smaller towns and on it rushed in its vibrant revelry till it has invaded every blood in the patch for miles and miles around. You have heard of the appendix patient being sent in to the county town by the cross rails. Let me tell you an operation was performed. The country town doctor sent their patients to the city doctors, and the city doctors rushed them off to New York, Barbek.

and when the New York doctors got a whack at a healthy appendix patient it was to Europe for him with the whole family and a time of trial dances. When the time of trial dances was over with the doctors bills in 70 acres of good farm land in 4 strings at long enough six miles out of town and good for them to walk back home on time and berry houses and it is slight though for he has been pushed out of competition and grasp.

We have heard so much about appendicitis till every school child in town is all about it and tell you what is most likely to bring it on. Advertising did it all and it ruined the blackberry business that is it ruined it till the housewife and a renowned appetite for blackberry pie found a way around it.

You could find which families who were raised on blackberries and never found anything wrong with them as a diet until the appendicitis struck and circulation, and now they are dragging their protesting young from the briar patch as if the fruit was poisoned.

The pneumonias who roamed the streets of the villages and towns with a full full of berries finding it very hard to get now and the market dull. When he approaches the blackberry through the back gate with his paint bucket of blackberries he finds no takers but the dog is sicked on him. No longer is he looked for with pleasure but with dread lest one of the children take a berry from the bucket and go off into paroxysm of verminiform appendix excruciations with a hundred dollar doctor's bill smelling of iodine.

The briars are no longer given room on the turn row or in the fence jams, but they are dug up and their seed destroyed. The horror of the little seed has wrecked a work on humanity that time will not efface for another five years. It will take five years fully for the people to regain their confidence in the blackberry now relegated to the back lot as food for pigs. But it has been discovered. The blackberry will no longer be looked upon as an enemy a destroyer of domesticity but will again find its place as one of our choicest foods and drinks.

The anti-appendicitis pie is a simple enough piece of culinary art. The cook prepares the berries just like they were to go in any how and just before they are put in they are tied up or twisted up in a piece of cloth which frays the black juice through and leaves the berries seed prisoners on the inside. When you have succeeded in catching the seed you can either burn them give them to the hens to stimulate laying and try the hog on them. You have a particular right to stir up something with them and feed them to the cat or the dog or your dog and go after with your seedless pie. And a piece of a pie is too good for who has been cracking the seed. The old pie will miss them in the seedless but they leave the stomach cold and the teeth blue. And then you just sure that an anti-appendicitis pie cannot be appendicitis. And so you can eat your pie and enjoy it.

There is always hope for humanity so long as the ingenious mind can find a way to side step all advice and allow man to say whatever his faster tells him is good.

Parents have never been in demand as a diet but if the doctors were to tell us that the meat was a most unsatisfactory food we had on the digestion some in would. I have heard of a perfect just to eat it and disprove the theory or act killed in the effort.

Spelled by the blackberry pie they are only as bad as will ever be, seed or no seed but most doctors sent their patients to the city doctors, and the city doctors so we will have to take it up with them.

I have for sale, La Dell Saw Mill 30 and 35 h.p. engine and boiler 1 and 1/2 miles from town, 3 side of dam and cut in 70 acres of good farm land in 4 strings at long enough six miles out of town and good for them to walk back home on time and berry houses and it is slight though for he has been pushed out of competition and grasp. Must go at bargain. G. L. Armstrong, Route 7, Dothan, Ala. In 7 d & wtf

BATCHELOR BROTHERS

AN INQUIRY INFORMATION

Does our present idea of social reformation give that relief which its votaries claim? Are we tending toward stronger and firmer convictions, in regard to taste and feeling, which sustain the physical and promote the mental? Or are our efforts covered with form, which, if supplanted by individual conduct would place us on an equality with those who seek to change. Which is it, the newly made forms of life, which we seek to propagate to better ourselves and others, or are we engaged in an effort, to put these forms into effect, to take the chills off of our own inward selfishness? Answer. Oh! for a microscope to see ourselves as we appear. Various kinds of emotion produce indigestion, as well as errors in diet. For this take Holland's Dyspeptic Elixir. If care and exertion has worn your physical form, so that the body appears lean and the muscles hard, if your appetite is gone, take Hollan's Spring Blood Tonic. Our labels are true to name, and represent no more than we claim for the medicines.
